Question No : 1 / 1

Cloud Question

As part of the Network Management Automation project, your task is to set up the initial IAM configurations to ensure the team has the necessary read-only access to the network resources. You need to create an IAM group and user with specific policies attached to facilitate this.

Task Details:

- Group Creation:
 - The IAM group should be named 'Network-L1-Team'.
 - The group should have 'AmazonVPCReadOnlyAccess' and 'AWSNetworkManagerReadOnlyAccess' policies attached.
- User Creation:
 - The IAM user should be named 'Network-L1-User1'.
 - The user should be added to the 'Network-L1-Team' group immediately after creation.
